

- Rodrigo Fernando Henriques Sobral
- Genève, Switzerland
- CERN - DevOps Engineer
- 3.8+ years of professional experience
- MSc Cybersecurity
- 26 years old

Experience

- **DevOps Engineer** at [CERN](#) (Jan 2024 - Present)
 - **Tech:** Python, Jupyter, Bash, Docker, Helm, Kubernetes, ArgoCD, Grafana
- **Back-end Developer** at [UCNext](#) (Sep 2022 - Jan 2024)
 - **Tech:** Python, Bash, Redis, PostgreSQL, Grafana, AWS S3, SAP
- **Private Tutor** at [Superprof](#) (Jun 2022 - Sep 2022)
 - **Topics:** Python, Javascript, Networking, Algorithms, Databases, Data Structures, Operating Systems
- **Analyst Developer** at [Project Box](#) (Apr 2022 - Jun 2022)
 - **Tech:** Python, Bash, Redis, PostgreSQL
- **Summer Intern** at [Critical Software](#) (Aug 2020)
 - **Tech:** Java, Springboot

Education

- Master's Degree in **Cybersecurity** at University of Coimbra (2023)
 - **Thesis:** Analysis of user behavioral patterns in cybersecurity.
 - **Topics:** Security Auditing, Secure Software and Infrastructures, Risk Assessment and Management, Privacy, Mobile Communications, Cryptography, Law, etc
- Bachelor's Degree in **Computer Science** at University of Coimbra (2021)
 - **Topics:** Compilers, Databases, Algorithms, Graphical Computation, AI, Distributed Systems, OS, Network Protocols, etc
- CTF exercises at [TryHackMe](#) (offensive security training, since 2019).
 - **Topics:** Pentesting, Kill Chain, MITRE ATT&CK, Exploitation, Malware Analysis, OSINT, etc

Languages

EN (Fluent) PT (Fluent) ES (Intermediate) FR (Basic)

Certifications

- [CKA: Certified Kubernetes Administrator](#)
 - [Junior Cybersecurity Analyst Career Path](#)
 - [Ethical Hacker](#)
 - [Many others](#)
-

Projects

- [TugaCoin](#)
 - **Tech:** NodeJS, Bootstrap
 - [Ethereum Todo List](#)
 - **Tech:** NodeJS, Bootstrap, Metamask, Solidity
 - [Small Personal Projects](#)
 - **Tech:** Python, C, Electron, Docker
 - [Scheduler Bot](#)
 - **Tech:** Python, Bash, Prisma
 - [Automated Classes](#)
 - **Tech:** Python, Bash, Selenium
